Capability Statement

NYXONE LLC is a full-service IT company that provides a variety of services to businesses of all sizes. We are a team of experienced and certified IT professionals passionate about delivering exceptional service and innovative solutions. We specialize in managed IT services, cloud services, software development, integration, and business intelligence & analytics. Additionally, we offer cyber security assessments, compliance, and IT security management services, helping our customers to stay ahead of emerging risks.

Core Competencies

Managed IT Services:

We provide comprehensive IT management solutions, including systems & networks monitoring, maintenance, security, and IT help desk support, to keep your IT infrastructure secure and running smoothly and efficiently.

Cloud Services:

We offer a variety of cloud computing solutions to help you migrate your IT infrastructure to the cloud, optimize your cloud costs, and ensure the security and scalability of your cloud environment.

Software Development:

We offer custom software development services tailored to your business needs. Our experienced developers can design, develop, and deploy software applications and services, including cloud, big data, database, web, mobile applications. We assist in defining requirements and use rapid development techniques and cutting-edge technologies to reduce costs, accelerate product development, and minimize risks.

Cyber Security:

Our cyber security solutions, including incident response, business continuity, backups, and security monitoring, are designed to protect your organization's most valuable assets round-the-clock. We employ sophisticated security measures to ensure your data is always safe and secure.

Business Intelligence, Analytics & Automation:

We help you transform your data into actionable insights through business intelligence (BI) and data analytics solutions. We can design, develop, and implement BI dashboards and reports to give you a clear view of your business performance and optimize your business processes with advanced automation.

Differentiators

What sets NYXONE LLC apart is our commitment to innovation, our client-focused approach, and our track record of success. We leverage our deep industry knowledge, technical expertise, and the latest technologies, including cloud, big data, and AI, to provide solutions and services that address our clients' specific needs. Our team is committed to delivering excellent customer service and results that exceed expectations. We are confident in the value we deliver and provide competitive rates for our services.

Past Performance

NYXONE LLC has a proven track record of delivering high-quality IT solutions to various enterprises. As a subcontractor, we serve small and medium-sized businesses and Fortune 500 telecom corporations. We consistently receive high customer satisfaction ratings for our reliable, efficient, and innovative solutions.

Our previous projects include:

- A cloud-based GOES-16 GRB satellite weather data processing and distribution system for several universities.
- A cloud-based multi-region data protection system and API for satellite GPS services.
- Various web and mobile applications and cloud services for Fortune 500 companies, such as FCC compliance portals and RF performance tools for large telecoms.
- An online store, warehouse management, and full ERP integration for resellers.
- Managed services for small and mid-sized businesses, including 24/7 NOC and SOC services, Microsoft 365 support, and cloud hosting.
